Portable LED Worklight - LIGHT WHEN & WHERE YOU WANT

Marexim i-Storm24

The Marexim i-Storm 24 portable worklight incorporates the very latest LED technology, providing instant lighting in an emergency, or for routine operational work.

Benefits

- No breakable lamps - eliminates maintenance and prevents infield blackouts
- No heat generated - work in comfort without sweating
- Long battery life - light for up to 14 hours without recharging
- No cables to tangle or trip on
- No external power required
- Silent operation
- Floodlight mode allows light unit to be extended up to 3 mtrs
- Safe 12V power supply (zero maintenance battery)

Features

- Dual Power Mode: 10hrs on HIGH
14hrs on LOW
- Lightweight 10kg
- IP44 Rated
- 24 Super Bright LEDs
- Linkable for use with other i-Storm lighthead
- In-car charger option allows recharging in the field

Applications

- Currently used extensively by defence forces, emergency crews, and maintenance units
- Remote access areas which require work at night
- Any situation where power is unavailable
- Essential maintenance teams throughout the night:- 10 hour high power covers an entire shift
- Hospitals and government buildings
- "Engine Room" maintenance
- Boats and recreation

"Quality doesn't cost... it pays!"
